

WHY FAMILIES CHOOSE 24-7 & WWT

**The pendant is global.
The support is local.**

Your medical alert is powered by myConnect® and watched 24/7 by a professional monitoring service. We chose the device, we set it up, and we stand behind it as your local provider. When you have a question, want to add a family contact, or need help adjusting the device, the number you call is right here in Western Wisconsin.

At a Glance:

Wear anywhere — house, garden, grocery store, anywhere with cell coverage

Lightweight & water-resistant for everyday life

Optional fall detection that calls for help automatically

GPS & Wi-Fi location, so responders find you fast

One button. That's it.

Backed locally by the team you already trust

**Talk to a neighbor
about peace of mind.**

A free, no-pressure consultation. We'll walk you through how it works, what's included, and what makes sense for your family.

INTRODUCING 24-7 MEDICAL ALERT PENDANT

**Independence,
right in their pocket.**

myConnect Medical Alert Pendant

A small wearable that does one big job.

WHAT IT IS

“Independence isn’t about doing it all alone. It’s knowing help is one press away.”

24-7 Medical Alert is a lightweight pendant designed to bring help wherever it’s needed. It clips to a lanyard, slips into a pocket, and goes wherever the day goes. With a single press of the help button, it places a call to a trained response team that can dispatch a neighbor, a family member, or emergency services. It runs on the 4G LTE network and uses GPS and Wi-Fi to share location, so help doesn’t have to guess where you are.

HOW IT WORKS

One press. Help is on the way.

1) Press the help button.

Anytime, anywhere with cell coverage. No phone, no app, no fumbling.

2) The pendant places the call.

Connects through the 4G LTE network in about six seconds (Advanced Mode).

3) A professional responder answers.

Two-way voice through the pendant, 24/7. They confirm the situation and dispatch the right help, whether it’s a family member, a neighbor, or emergency services.

4) Your family gets a heads-up.

If the system has fall detection enabled, it also calls when a fall is detected, even if the button isn’t pressed.

WHY 24-7 & WWT

The pendant is technology.

- **One Local number for everything.** We’ve served Western Wisconsin for over 70 years. Questions, changes, family contacts, support, one local number, your neighbors at 24-7 & WWT.
- **No surprises, ever.** Transparent pricing, no expiring promo bundles, no hidden fees. The same pricing philosophy we apply to everything else we offer, applied to your peace of mind.
- **Set it up once. We handle the rest.** Firmware updates, language changes, volume adjustments, and device diagnostics happen over the air on our end. The user wears the pendant. We take care of the rest.

A simple wearable that connects your family to help, anywhere life takes them.
